

SAFETY DATA SHEET

## **SECTION 1 - Chemical Product and Company Information**

Product Name: PROCOAT ACOUSTICAL TILE RESTORER Product Code: ATR

| Manufactured for:          |
|----------------------------|
| ProCoat Products, Inc.     |
| 260 Centre Street, Suite D |
| Holbrook, MA 02343         |

4-Hour Emergency (Spill, Leak, Exposure or Accident): INFOTRAC 800-535-5053 Outside USA, Call Collect 1-800-510-8510

Product Use: A orotective and/or decorative finish or accompanying product (reference label or product data sheet for more information).

Not recommended for: Any other use not detailed on product data sheet or label.

## **SECTION 2 - Hazards Identification**

#### **GHS Ratings:**

## Section 4 - First Aid Measures

#### Inhalation:

Remove exposed individual to fresh air and assist breathing if necessary. Seek medical attention,

## Eye Contact:

Flush eyes with lukewarm water for 15 minutes. Seek medical attention immediately.

## Skin:

Remove contaminated clothing, wash area immediately with soap and water. See physician if irritation persists.

## Ingestion:

Rinse mouth out immediately. Drink 1 or 2 glasses of water to dilute. DO NOT induce vomiting. Contact physician or poison control center immediately.

## Section 5 - Fire Fighting Measures

Alcohol Foam, CO2, Dry Chemical

Do not puncture or incinerate. Exposure to heat or prolonged exposure to sun may cause container to burst. Do not expose to heat or store at temperatures abvove 120 degrees F. Vapors are heavier than air and may travel along the ground or may be moved by ventilation and ignited by pilot lights, sparks, heaters, smoking, electrical motors or static discharge distant from handling pot.

Burning may produce oxides of nitrogen and carbon.

Clear fire area of unprotected personnel. Do not enter confined space without helmet, face shield, bunker coat, gloves, rubber boots and a positive pressure NIOSH-approved self-contained breathing apparatus. A water stream can scatter flames. A spray of water may be used to cool closed containersto prevent preassure buildup and possible auto ignition or explosion when exposed to extreme heat. If water is used, fog nozzles are preferable.

## Section 6 - Accidental Release Measures

Stay upwind and away from spill or leak unless wearing appropriate equipment. Stop and/or contain discharge if it may be done safely. Keep all sources of ignition away. Ventilate area of spill. Use non-sparking tools for cleanup. Cover with inert material to reduce fumes. Keep out of drains, sewer, or waterways.

If large spill occurs, alert spill response teams. Contact fire authorities. Notify local health and poll n control agencies.

#### Section 7 - Handling and Storage

#### Handling:

I

Personnel should avoid inhalation of vapors. Personal contact with the product should be avoided. Should contact be made, remove saturated clothing and flush affected skin with water. Containers of this material may be hazardous when empty. Since emptied containers retain product residues (vapor, liquid and/or solid), all hazardous precautions given in this sheet must be observed. Should contact be made, remove saturated clothing and flush affected skin with water. Containers **Storage:** 

# Keep product containers cool, dry and away from sources of ignition. Use and store this product with adequate ventilation. DO NOT SMOKE in or near storage areas.

Section 8 - Exposure Controls/Personal Protection

|                         | Section 8 - Exposure Con |                       |                           |

| 96-29-7                 |                          |                       |                           |

## Section 10 - Stability and Reactivity

Stability: Stable under normal conditions.

Materials to Avoid: Strong oxidizing agents

Conditions to Avoid: High heat, sparks, flames, static discharege

Hazardous Decomposition: Oxidation may produce carbon and nitrogen oxides. Hazardous polymerization will not occur.

## Section 11 - Toxicological Information

#### **Mixture Toxicity**

Inhalation Toxicity LC50: 358 mg/L

#### **Component Toxixity**

96-29-7 2-Butane, oxine Oral LD50: 930 mg/kg (Rat) Dermal LD50: 0 mg/kg (Rabbit) Inhalation LC50: 20 mg/L (Rat)

Primary Routes of Entry: Inhalation, Skin Contact, Ingestion

#### Skin:

Skin contact can cause redness, dryness or rash. Prolonged contact can cause irritation, dry skin, cracks and dermititis.

#### Ingestion:

Can cause vomiting, nausea, diarrhea, and gastrointestinal irritation.

#### Inhalation:

Excessive inhalation of vapors can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache possible unconsciousness. High vapor concentrations or prolonged breathing of lower concentrations may result in damage to the liver, kidneys, lungs and blood forming organs. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

#### Eyes:

Can casue irritation, redness, tearing and blurred vision.

#### Carcinogenicity:

The following chemicals comprise 0.1% or more of thisixture and are listed and/or classified as carcinogens or potential carcinogens by NTP, IARC, OSHA (mandatory listing), or ACGIH (optional listing).

| CAS Number | Description             | % Weight | Carcinogen Rating             |
|------------|-------------------------|----------|-------------------------------|
| 106-97-8   | Butane                  | 5 to 10% | Butane: EU REACH Present (C)  |

## Section 13 - Disposal Considerations

Do not flush to sewer, watershed or waterway. Dispose of product in accordance with applicable local, county, state abd federal regulations. See Section 8 for information on exposure control and necessary personal protective equipment.

#### Section 14 - Transportation Information

| <u>Agency</u> | Proper Shipping Name          | <u>UN Number</u> | Packing Group | Hazard Class |

## Section 15 - Regulatory Information

## California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986):

This product contains the following listed substances known to the State of California to cause cancer, birth defects or other reproductive harm, at levels which would require a warning under the statute 13463-67-7 Titanium dioxide.

The following ingredients are listed in the TSCA Section 8(b) Inventory (Hydrated forms of chemical substances are exempt from the inventory as mixtures; the anhydrous chemical substances, however, are reportable for the inventory):

| 96-29-7    | 2-Butanone, oxime   |
|------------|---|
| 7631-86-9  | Silica, amorphous   |
| 106-97-8   | Butane  |
| 64742-89-8 | Solvent naphtha, petroleum. Light aliphatic                                 |
| 13463-67-7 | Titanium dioxide  |
| 68410-97-9 | Distillates, petroleum, light distillate hydrotreating process, low-boiling |
| 1317-65-3  | Limestone   |
| 141-78-6   | ETHYL ACETATE   |
| 74-98-6    | Propane   |
|            |   |
